

Right information, right person, right time.

More informed decisions,
improved self care and
management

People actively involved in their health and wellbeing

View, control and contribute to their own health and wellbeing information by accessing a Person Held Record.

Better decision making
and saving time

Shared Care Record

Enables clinical and care staff to access real-time health and care information across health and social care providers and between different IT systems, securely and safely.

Better planning of services,
prevention or improved
management of ill health

Population health management

Using intelligence from large scale data sets to improve population health. Centralised data on individual's health and wellbeing and on the services they use.
